

A tale of two piers, the Victorians

This is suitable for KS 1 and 2 children who are studying the Victorians as part of the national curriculum. We begin with an hour-long introductory session that can be held in the classroom to introduce the subject. This is followed by a half day (around 2.5 hours) visit to the pier where children will engage in three different workshops allowing them to discover the rich and interesting history of the pier and how the Victorians helped shape this to turn Swanage into a bustling seaside town.
