ACTIVITY SHEET

ACTIVITY 1

Look at this aerial photograph. Can you label:
* The sea * The beach * The new Pier
The old Pier * The town centre

ACTIVITY 2

Use a compass to work out where North, South, East and West are.

Mark these directions on your aerial map.

ACTIVITY 3

Pick a point to stand on the Pier, mark this point on your aerial photograph with an X.

What can you see when you look North?

What can you see when you look East?

What can you see when you look South?

What can you see when you look West?

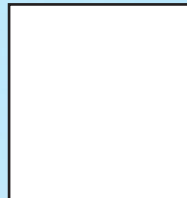

ACTIVITY 4

Use your aerial photograph to draw a map of the pier. Create symbols for your map, to show people where they can find different sections of the Pier.

A symbol is a picture on a map that represents something in the real world. Understanding these symbols requires the use of a key. Maps use a key to explain the meaning of each of the symbols used on the map. These keys usually show a small picture of each of the symbols used on the map, along with a written description of the meaning of each of these symbols.
